An instructor may drop a student from any or all components (e.g., lecture, recitation, lab, etc.) of a course if the student is absent at the beginning of the first class period of any component of the course. Students who cannot be in attendance should arrange prior permission from the instructor in order not be dropped.

Beginning the first calendar day of the term, an instructor is to notify Enrollment Services 210 Willard Hall (or the K-State-Salina Registrar's Office for Salina courses) if he/she would like to have a student dropped from a course because of the above policy. Faculty should send to the Enrollment Services Office - 210 Willard Hall (or to K-State Salina Registrar's Office - 208G College Center) a copy of the iSIS class roster with the appropriate names of the students crossed out who should be drop for no-shows the first day of classes. Submit the iSIS class roster as soon as possible and NO LATER THAN the end of the 12th calendar day of the term. Non-standard classes are pro-rated. See the [Academic Calendar](#) for reference.

Students then submit this form to the Department Office who owns the course and who will enter permission into iSIS. (If the course is a psychology course, submit this form to the Department of Psychology.)

**SPECIAL STUDENT**

A student taking classes at K-State but not regularly enrolled in work towards a degree is classified as a special student. This student will not qualify for financial assistance. The special student option is not available for an international student on a student visa.

**STUDENT GRADUATION/RETENTION RATES**

Public Law 101-542, more commonly known as the Student Right-To-Know and Campus Security Act, requires that institutions of higher education provide information on their graduation rates currently enrolled and prospective students.

**Graduation**

Of the new freshman entering Kansas State University in the fall of 2000 59% had graduated and 4% were still enrolled at the end of six academic years, yielding a graduation/persistence rate of 63% after six years. Additionally, it is estimated that over 5% transferred to other four-year colleges or universities to pursue professional degrees or curricula not offered at Kansas State University. Of even greater interest to students and prospective students should be the graduation/persistence rates of specific sub-groups of entering freshman. Students' high school backgrounds and achievements are strong predictors of college success. Seventy-eight percent of those entering freshman who report high school grade point averages of 3.50 or higher either graduate or remain enrolled after six years. Seventy-two percent of those who report a 3.00 average or better in high school graduate or remain enrolled after six years. For all students reporting a high school average of 2.50 or higher, the graduation persistence rate is 68%. Seventy-four percent of entering students who rank in the top quarter of their high school class graduate or remain enrolled after six years. Sixty-nine percent of those in the top half persist. Seventy-three percent of entering students who report completion of a college preparatory curriculum or the Regents' Recommended Curriculum either graduate or remain enrolled and are successfully pursuing their degrees at Kansas State University after six years. The ACT remains a strong predictor of college success. After six years, 75% of Kansas State freshman who enter with above average ACT scores either graduate or are still enrolled after six years. High school size seems to matter very little. For students reporting graduation class sizes of less than 100 students, 65% graduate or are still enrolled after six years. The corresponding rate for high school graduation classes of over 400 is 67%.

**Retention**

Retention rates are also important to any student in the process of selecting a college or university. Freshman-to-sophomore year retention rates are critical importance since over one half of all students who drop out of college do so prior to the sophomore year. Again focusing upon the fall 2000 entering freshman class at Kansas State University, 79% returned for their second year. This compares to an ACT reported average of 75% for institutions of similar mission and admission standards (ACT, 2003). Like graduation rates, retention rates vary among various sub-groups of students. Of the fall 2000 entering freshman, 86% of those having above average ACT scores returned for their sophomore year. Ninety percent of those with scores above 30 returned. Similar positive trends hold for high school rank, high school grade point average, college preparatory curricula, etc.

For additional information, contact Michael Lynch, Associate Vice President for Institutional Advancement, Kansas State University, Manhattan, Kansas 66506.

**STUDENT RECORDS POLICY**

Kansas State University maintains various student records to document academic progress as well as to record interactions with University officials and staff. To protect the student's rights to privacy, and to conform with federal law (FERPA), the University has established the Student Records Policy. Interpretation of this policy is based on experience with educational records, and the policy itself may subsequently be modified in light of this experience. Notice of this policy and of students' rights under the federal law is given annually. Copies of this policy are available at the Registrar's Office, 118 Anderson Hall, (or K-State Salina, 208 College Center) and are published in the electronic [Undergraduate Catalog](#) and the electronic [Graduate Catalog](#). See the [Student Records Policy](#) on the Registrar's Office website.

Kansas law provides that any person who violates the criminal statutes on controlled substances by possessing, offering for sale, distributing, or manufacturing opiates and narcotics, such as cocaine and heroin, shall be guilty of a Class C felony. For a conviction of a Class C felony, the court may sentence a person to a term of imprisonment of a minimum of three to five years, a maximum of 10 to 20 years, and a fine of up to \$15,000. Persons convicted of driving under the influence of alcohol or drugs are subject to severe fines, imprisonment, and other penalties.
